See and improve your **bottom line**

Celoxis Deployment Options

Robust Product

With our result-oriented design, you spend less time in the software and more time doing your work. Celoxis has matured and adapted to best practices from time to time.

Uncompromised Service

We believe our association has already begun and does not end when you pay. Our support folks focus on solving your problems and not merely responding to your questions.

Continual Support

We have comprehensive documentation, an online community, and also offer various one-on-one web based customized training programs to help you and your organization ensure your projects' success.

Reliability & Availability

- Multiple redundant Internet connections and power supplies for always-on access

Testimonials

"Celoxis is easy to use, the interface is clean and simple, and having all project and resource information in one location has been an improvement to our business."

Fuji - Xerox

"Celoxis has allowed us to gain project and resource management visibility across the business and improve overall coordination, communication, and project execution."

Petfre (Gibraltar) Limited

"I have to say that the more I look at Celoxis, the more I find it fantastically well-designed and now I find that it has excellent support to match! All my preconceptions (also from experience) about India-based systems have been overcome and I can honestly say that I find Celoxis absolutely brilliant. Keep up the good work!"

Braben

"More than controlling, what Celoxis brings is collaboration."
